

ENVIRONMENTAL POLICY STATEMENT

Maytrix Construction Ltd is committed to protecting the environment whilst promoting sustainable development and corporate responsibility.

We recognise our responsibility to minimise the environmental impacts of our activities, products and services, whilst delivering work to our clients' satisfaction. It is the policy of Maytrix Construction Ltd to:-

1. Comply with relevant environmental legislation, regulation and other requirements relating to our activities.
2. To identify and assess the significant environmental aspects and impacts of our activities and implement appropriate measures to reduce their potential environmental impact including:
 - Protecting and improving the built and natural environment;
 - Preventing pollution;
 - Improving resource efficiency and reducing energy use;
 - Minimising and correctly managing waste;
 - Minimising statutory nuisance;
 - Recognising the company's social corporate responsibilities.
3. Set and review environmental objectives and targets in order to measure our environmental performance.
4. To ensure that environmental responsibilities are defined, communicated and understood at all levels within our organisation and promote a wider staff understanding of environmental issues.
5. Provide ongoing competence training, lifelong learning and awareness to staff related to their potential to cause a significant environmental impact and that persons performing tasks on our behalf are competent to undertake such work.
6. To ensure that suppliers and subcontractors are aware of the Company Environmental Policy and encourage them to develop appropriate systems and a responsible approach with regard to environmental issues.
7. Record, co-operate and respond to the views of interested parties including stakeholders, regulatory bodies, clients and the general public.
8. To seek continual improvement in environmental performance for our environmental management and social corporate responsibility in the areas of environment, workplace, marketplace and communities.

This policy will be achieved by the implementation of our environmental management system and will be based on ISO 14001:2004 standard and our other business systems. Management are responsible for implementing this policy and monitoring our environmental performance.

This policy will be displayed at our head office, on our website and held on all sites.
